ALTOCARE

For Pest Control

What is AltoCare?

Alto Care is an effective **Insecticide/ Miticide/ Fungicide** that gets rid over 200 species like **Aphids, Mites, Scale, Leaf hoppers, white flies, Caterpillars & Mites.**

Altocare does not harm Bees & Lady Beetles.

Alto care can be used to prevent Mildew & Fungal diseases such as Black spot, Scab, Rust, Leaf Spot, Anthracnose & Tip Blight on plants.

To kill Fungi, spray Altocare on plants once a week until the fungi clears up, & then spray after every two weeks to keep it away from coming back.

What are Pests?

"Pests" are the insects eating your plants. Alto Care kill insects that eat crops in the field. That's why it does not kill Bees & Lady Beetles because they do not eat plant leaves.
